

# Toy Box 2.0

**Toy Box 2.0** is an attractive and engaging series that provides a holistic approach to language learning through contact with literature and content area topics while developing motor and social skills. It also combines a variety of teaching methods to make learning meaningful.

This course is based on the premise that children are constantly and actively involved in making sense of the world by making it their own.

Give children  
the best start  
in life as they learn  
and enjoy English.

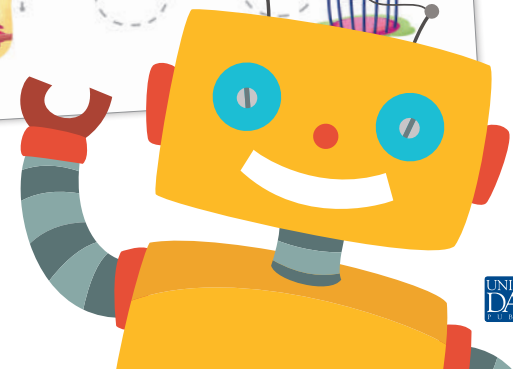

## STRUCTURE

**Toy Box 2.0** includes fifteen thematic units: one introductory unit, seven literature-based units, and seven content-based units.

Each lesson is linked to a specific field of learning.

- **Language and communication** presents new language and vocabulary with phonics activities where students identify and reproduce initial sounds.
- **Exploration and knowledge of nature and society** consolidates previous knowledge while exploring social studies and natural science topics.
- **Mathematical awareness** offers counting, grouping, and sequencing activities to increase awareness of numbers and shapes.
- **Expression and appreciation of art** provides rhymes, songs, arts, and crafts to explore the field of art.

## BENEFITS

### EXPLORE UNIVERSAL VALUES

Explore universal values such as generosity, kindness, friendliness, and respect in the context of literature selections and content topics.

### INCREASES ENGLISH EXPOSURE WITH DIFFERENT THEMES

With **Toy Box 2.0** develop pre-reading and communication skills, pre-math awareness, exploration of nature and society and art appreciation through every lesson.

### RECYCLES LANGUAGE AND STRUCTURES WHILE CONSOLIDATING NEW LANGUAGE

With **language learning spiraling** from unit to unit and level to level, your students will be able to recycle and consolidate language.
