

# Go-Getters

An inspirational series based on a group of comic book friends that grow up with the students.

Your students will acquire English naturally through contact with everyday situations, literature, and content area topics. They will observe and explore new language in context and then go on to practice in purposeful, age-appropriate activities that promote language acquisition.

Inspiring comic book friends who guide your students into the English language world.

## STRUCTURE

**Go-Getters** is divided into ten units: a five-page *Welcome* unit, eight nine-page topic-based units, and a five-page *Goodbye* unit. Each page provides materials for a 50-minute class.

Each of the topic-based units contains five two-page sections:

- The **comic** of each unit revolves around the daily lives and adventures of the *Go-Getters* characters while highlighting a social-emotional theme.
- The **Say!** section uses a song to focus on the new language from the comic and to practice pronunciation. It then provides controlled and freer oral practice of new language items in meaningful activities related to the context.
- The **Relate!** section presents a new language point and set of vocabulary items in the context of a narrative or informative text.
- The **Explore!** section brings together the two sets of language and vocabulary covered in the unit in the context of an authentic narrative or a CLIL-based text.
- The **Got it!** section provides an entertaining language game to review and consolidate new language.
- The **Check it!** box allows students to reflect on their own learning.

A **Glossary** is provided at the back of the book to support students with new vocabulary.

With **Go-Getters**, your students will develop communicative competence within a well-structured functional grammar syllabus, and they will learn new language and recycle previously learned language in an integrated, systematic manner.
